We show you how to put Your Best Face Forward with great skincare & teach you your best makeup colors for your skintone and how to apply them. Your image is not only the clothing and accessories you place on your body. Your face, your smile, and your attitude are some of the first things a person will notice about you.

WHAT TO EXPECT OF YOUR SKINCARE & MAKEUP CONSULTATION?

MENS STYLING & GROOMING

STYLING:

We believe that every man is different & has his own unique style and persona. It's the way of expressing who you are and separating yourself from others. The types of clothing may be the same all around but the way of putting it together is what we call an art. In general, there are six major men-styles that one can capture in his lens... **Classic | Dramatic | Elegant | Natural | Romantic | Rustic**

We understand & make sure to blend your profession, lifestyle, personal style & the occasion before starting with our advice. To start the consultation, we start with our two-hour advisory session, wherein we make sure that you talk the maximum & we provide you with perfect advice with a minimum talk. Our advisory would be comprehensive and addressing to what actually works best for your body type, face shape, coloring, lifestyle & occupation.

GROOMING:

I wish the styling and clothing had done all the wonders to impress a person but gladly that's not the case. Grooming is exactly the point where a Gentleman would differ from an ordinary man, it shows that "you care for your body and appearance". In this section we shall make you aware and guide towards basic and necessary parts of your body and personality that should be groomed periodically. Here, everything else than the clothes gets a highlight. **Hairstyles | Make up | Accessorizing Perfumes | Personal Hygiene | Body Posture | Diet | Exercise**

WORDS & ACTIONS

Communication (Verbal or Non-verbal - WORDS) and behavior (personal as well social - ACTION) play a major decisive role in determining "who you are and what you think".

In this part of our advisory we shall make you aware about the do's and don't's of a communication mechanism and how to portray the best image with a little behavioral change. We shall advise on the various aspects like: **Body Language | Gesture | Volume and Pitch | Eye Contact | Small Talks Listening | Civic Etiquette Dining Etiquette | Phone/Mobile Etiquette | Gentlemen-ism**
